

Faculty Forum
9th Annual Leonard Weiss Memorial Lecture

*Intrinsic Therapeutic Resistance of Breast
Cancer Stem Cells*

Presented by:

Jeffrey M. Rosen, PhD

*C.C. Bell Professor of Molecular & Cellular Biology & Medicine
Distinguished Service Professor
Baylor College of Medicine
Houston, TX*

Host: Kenneth W. Gross, PhD
Chair, Molecular and Cellular Biology

Wednesday, June 10, 2009

8:00 – 9:00 am

**Roswell Park Cancer Institute
Center for Genetics and Pharmacology, Zebro Family Conference Center**

At the conclusion of the program, participants should be able to:

- ◆ Identify the small subset of cells expressing mesenchymal markers that may be responsible in part for the intrinsic therapeutic resistance to radiation and chemotherapy;
- ◆ Explain the affect of this observation on treatment of breast cancer patients who have relapsed after initial response to conventional endocrine and chemotherapies.

ATTENTION: YOU MUST SIGN THE ATTENDANCE SHEET TO RECEIVE CME CREDIT.

Roswell Park Cancer Institute is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Roswell Park Cancer Institute designates this educational activity for a maximum of 1 category 1 credits toward the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the activity.

Dr. Rosen reports no financial relationships with commercial companies.
